Good afternoon,

Attached and below is the information Thrasher provided after our conference call for Benedum Airport. Per the call, they are requesting that no compensatory mitigation be required for the portion of UNT 8 which they identify as ephemeral. I'd like to have a quick conference call to discuss their request. Can you let me know your availability for 8/21, 24 or 25?

Thanks,

Alyssa,

Please see the attached informational package that Adrianna put together for you to review the ephemeral portion of UNT 8 to see if the airport needs to mitigate for it under the new WOTUS rule, but without us having to resubmit the AJD. Please let me know if you have any questions.

Thank you,
